

The Federal Communications Commission

Dear The Federal Communications Commission,

To: The FCC

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make the current service unaffordable me and many members of my family.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is an unfair and irresponsible action!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. Is this yet another attempt by federal officials to give big businesses the advantage over the individual? I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely, Beth Hensley 506 North Avenue Hopewell, VA 23860

Sincerely,

Beth Hensley
